STEP-BY-STEP HOW-TO THE ART OF GRILLE CUSTOMIZING

Heres a couple of vintage ads that were running around the time our newest members' cool rides were manufactured. Cool magazine cover below shows off some kickin' bumperettes.

An honest look at driving from the Chevy side of the tracks.

A sports car for the four of you.

Say you've got a wife and two kids. Or you have two Great Danes. Or maybe you have two too many friends. But you want to drive a sports car.

You could buy a Corvette. But good as it is, space is limited to two people.

So, we also have Camaros. With four seats. And we think we're perfectly justified in calling it a sports car.

It certainly qualifies on looks. Our stylists have seen to that. And it performs and handles like a sports car. Our engineers have seen to that.

But nothing we can say can take the place of a test drive. So why don't you see your Chevrolet dealer. He's got a sports car waiting. For the four of you.

Did you guess the old hood ornament or did you have to google it? Or maybe you old schooled it and picked up a magazine or book. Either way if you guessed a 1935 Plymouth hood ornament, you would be exactly correct. The signature Ship seemingly flying across the waves adorned Plymouths for many years. American Pickers had a recent episode with a potential seller having a literal pile of hood ornaments. Cool stuff!!!!
