I Didn't Know That! – Introduction

The Bowtie staff has reworked the format of the newsletter. In short, we ran out of national and state holidays to write about. So, this issue will start with a four-part article about automobile trivia entitled “I Didn't Know That.” We will continue to find more interesting facts and trivia to include in future newsletter issues.

I Didn't Know That! – Part 1

1. The year 1886 is considered to be the birth of the modern car. In that year, German inventor Carl Benz built a modern automobile called the Benz Patent-Motorwagen.
2. Sir Alec Guinness warned James Dean one week before he died not to get into his new Porsche 550 Spyder or “You'll be dead in it by this time next week.” 
3. There are currently over 1 billion cars on the earth.
4. The United States has more cars than any other country in the world, at 300 million. China comes in a distant second, at 78 million.

5. Holding a remote car key to your head doubles its range because the human skull acts as an amplifier.
6. One out of 4 cars in the world come from China.
7. Inventor Mary Anderson (1866-1953) invented the first effective windshield wiper. They were initially considered a distraction.
8. In Christopher Nolan's film Batman, Bruce Wayne drives a Lamborghini Murcielago. In Spanish, Murcielago means, “bat.”
9. For many cars, the “new car smell” is actually toxic. It is composed of over 50 volatile organic compounds.
10. The BMW logo derives from the company's origin as an airplane manufacturer. The now iconic blue and white “target sign” represents a spinning white propeller against a blue sky.

11. A single car has about 30,000 parts. About 80% of a car is recyclable.
12. The Hennessey Venom GT is the fastest car in the world at 265.7.
13. Approximately 75% of the cars that Rolls Royce has produced in its history are still on the road.
14. Washington D.C. has the worst traffic in the United States, with commuters waiting 82 hours a year in traffic.
15. If all the cars in the United States were placed end to end, it would probably be Labor Day Weekend.
16. The last car with a cassette player was the Ford Crown Vic in 2011.
17. The names of all Lamborghini's cars are derived from the world of bullfighting. The Diablo and Murcielago are both the names of famous bulls, while the Estoque is the style of sword that Matadors use.
18. The heaviest limousine weighs over 50,000 pounds. It has 3 lounges, a bar, and can carry up to 40 people.
19. The word “car” is from the Latin carrum, which originally meant a “two-wheeled Celtic war chariot.” The Latin is further derived from the Proto-Indo-European root *kers- “to run.”
20. A car is stolen in the United States every 45 seconds.
21. A steering wheel gives a driver more control over the vehicle and requires less energy than a lever. The first cars didn't have a steering wheel. People had to steer them with a lever.
22. A dashboard was initially a piece of wood attached to a horse drawn carriage to prevent mud from splattering up from the horses and onto the driver.

23. The “Flatmobile” holds the record for the world’s lowest street-legal car at just 19 inches high.
24. The most often stolen car in the United States is the Honda Accord. Rounding out the top five are the Honda Civic, the Ford Pickup (full size), the Chevrolet Pickup (Full Size), and the Toyota Camry.
25. Approximately 5 months of a person’s life is spent waiting in a car at red lights.
