March 2, 1966

The “working man’s Thunderbird” made its automotive debut on April 17, 1964, at the World’s Fair in Flushing Meadows, New York. Less than two years later, the one millionth Mustang—a white convertible—rolled off the Ford assembly line in Dearborn, Michigan. With an average price tag of \$2,300, the now iconic Mustang was as sporty as it was affordable. Roughly 500 Mustang clubs had already been formed by 1967. And while the Mustang has appeared in hundreds of American feature films, the first was in the James Bond movie, *Goldfinger* in September 1964.

March 8, 1950

After the War in 1944, the Wolfsburg Volkswagen factory where the VW Beetles were made had no means of internal transport. So the people who worked in the experimental department came up with the idea of a flatbed truck utilizing parts from another vehicle—the Kübelwagen. Dutch Volkswagen importer Ben Pon is credited with the “bus” concept after impressing engineers with a sketch of the vehicle showing the cab moved forward and the flatbed covered over.
