#### March Equinox – March 20, 2022

##### The March Equinox

By Konstantin Bikos and Aparna Kher

There are two equinoxes every year: one in March and one in September. In March, the Sun crosses the equator from south to north.

##### March equinox illustration

On the equinox, the Earth's axis is perpendicular to the Sun's rays.

##### Sun Crosses Celestial Equator

The March equinox is the moment the Sun crosses the celestial equator—an imaginary line in the sky above Earth's equator—from south to north. This happens on March 19, 20, or 21 every year.

##### Equinox Local Time & Date

In Springfield, Missouri, USA: Sunday, March 20, 2022 at 10:33 am CDT

This corresponds to Sunday, March 20, 2022 at 3:33 pm UTC.

### Why Does the Sun Move North and South?

During the course of a year, the subsolar point—the spot on the Earth's surface directly beneath the Sun—slowly moves along a north-south axis. Having reached its southernmost point at the December solstice, it starts moving northward until it crosses the equator on the day of the March equinox. The June solstice marks the northernmost point of its journey.

The subsolar point moves north and south during the year because the Earth's axis is tilted at an angle of about  $23.4^\circ$  in relation to the ecliptic, an imaginary plane created by Earth's path around the Sun. In June, the Northern Hemisphere is tilted toward the Sun, and the subsolar point is north of the equator. As the Earth travels toward the opposite side of its orbit, which it reaches in December, the Southern Hemisphere gradually receives more sunlight, and the subsolar point travels south.

### How do seasons work?

Equinox and solstice illustration.

Earth is tilted as it orbits the Sun, which is why equinoxes and solstices happen.

Why Is It Called “Equinox?”

On the days of the equinoxes, the Earth's axis is perpendicular to the Sun's rays, meaning that all regions on Earth receive about the same number of hours of sunlight. In other words, night and day are, in principle, the same length all over the world. This is the reason it's called an “equinox,” derived from Latin, meaning “equal night.”

However, this is literal translation not entirely true. In reality, equinox days don't have exactly 12 hours of daylight and 12 hours of dark.

The Equinoxes and the Seasons

The March and September equinoxes mark the beginning of the spring and autumn seasons on Earth, according to one definition. The equinox in March is the start of spring in the Northern Hemisphere and the beginning of fall south of the equator.

### Measuring the Tropical Year

The March equinox can be used to measure a tropical year, the mean time it takes for the Earth to complete a full orbit around the Sun. Also known as a solar year, a tropical year is approximately 365 days, 5 hours, 48 minutes, and 45 seconds long. It can vary by up to 30 minutes each year.

### Why Does the Date Vary?

The date of the equinoxes and solstices varies because a year in our calendar does not exactly match the length of the tropical year—the time it takes the Earth to complete an orbit around the Sun.

Today's Gregorian calendar has 365 days in a common year and 366 days in a leap year. However, our planet takes about 365.242199 days to orbit the Sun. This means that the timing of the equinoxes and solstices slowly drifts apart from the Gregorian calendar, and the solstice happens about 6 hours later each year. Eventually, the accumulated lag becomes so large that it falls on the following date.

To realign the calendar with the tropical year, a leap day is introduced (nearly) every four years. When this happens, the equinox and solstice dates shift back to the earlier date again.

Other factors influencing the timing of the equinoxes and solstices include variations in the length of a tropical year and in the orbital and daily rotational motion of the Earth, such as the “wobble” in the Earth's axis (precession).

### From the Editor

**From the Editor:** The Bowtie Editor is always looking for ways to improve the format and content of the newsletter. Any comments are welcomed. News about past (participants/trophies) happenings, upcoming car shows, or events are certainly appreciated.

Special Editor Note: It is getting more and more difficult to keep track of local car shows and events. Dates can be canceled, postponed, or moved with very little notice. Please let Melinda or me know of any changes you come across, so we can keep the schedule list up to date.

Thanks.

### *Windows vs. Ford*

For all of us who feel only the deepest love and affection for the way computers have enhanced our lives, read on. At a recent computer expo (COMDEX): Bill Gates (presumably the first appointed "leader" of the world) reportedly compared the computer industry with the auto industry and stated, "If Ford had kept up with technology like the computer industry has, we would all be driving \$25 cars that got 1,000 miles to the gallon."

In response to Bill's comments, Ford issued a press release stating:

If Ford had developed technology like Microsoft, we would all be driving cars with the following characteristics (and I just love this part).

1. For no reason whatsoever, your car would crash twice a day.
2. Every time they repainted the lines in the road, you would have to buy a new car.
3. Occasionally your car would die on the freeway for no reason. You would have to pull to the side of the road, close all of the windows, shut off the car, restart it, and reopen the windows before you could continue. For some reason you would simply accept this.
4. Occasionally, executing a maneuver such as a left turn would cause your car to shut down and refuse to restart, in which case you would have to reinstall the engine.
5. Macintosh would make a car that was powered by the sun, was reliable, five times as fast and twice as easy to drive - but would run on only five percent of the roads.
6. The oil, water temperature, and alternator warning lights would all be replaced by a single "This Car Has Performed an Illegal Operation" warning light
7. The airbag system would ask, "Are you sure?" before deploying.
8. Occasionally, for no reason whatsoever, your car would lock you out and refuse to let you in until you simultaneously lifted the door handle, turned the key and grabbed hold of the radio antenna.

9. Every time a new car was introduced car buyers would have to learn how to drive all over again because none of the controls would operate in the same manner as the old car.

10. You'd have to press the "Start" button to turn the engine off.

PS - I'd like to add that when all else fails, you could call "customer service" in some foreign country and be instructed in some foreign language how to fix your car yourself!

Congratulations to Freeman Lollar on stepping into the role as the new President of the Ozark Santa's group.

### **FREE SNOW SHOVELING CLASS!**

Wednesday and Thursday I will be holding a FREE snow shoveling class in my driveway. Beer provided! Come and join the class and learn about the proper ways to shovel.

Reviewed techniques will include the scoop and throw method, the down and push method (AKA the plow technique), as well as the upside-down scraping technique. Don't miss out on this amazing opportunity to enhance your snow lifting techniques without throwing your back out!

I will provide the driveway to ensure your training is conducted in the most life-like situation, I only ask that you bring your own shovel (Ergonomically designs suggested) Phone me for additional details and times. Seating is limited and handled on a first come first served basis...Subject to date change depending on total accumulation/s!

Also, the shoveled snow is free, so bring plastic bags, a trailer or a truck. Wheelbarrows work well too! Take as much as you like to practice techniques on your own time, in your own happy place. No Charge....

### Thoughts & Prayers

Always keep our great country and our military in your prayers.

The Lord is gracious and merciful; slow to anger and abounding in steadfast love.

Psalm 145:8

War must be while we defend our lives against a destroyer who would devour all but I do not love the bright sword for its sharpness nor the arrow for its swiftness nor the warrior for his glory. I love only that which they defend.

J.R.R. Tolkien

4. Wendell also announced that there would be fun run meetings on June 11th and 25th and asked for volunteers for judging, games, etc.
5. A motion was made, seconded and passed to give certificates to winners of our own cars at the fun run. Classes for our cars, which will be judged separately, are; 55, 56, and 57 originals all in one class, and one class each for 55 modified, 56 modified, 57 modified, trucks, and vettes.
6. The June club meeting will be held at the School of the Ozarks on June 28th. We will leave the Venture parking lot at 12:30 p.m.
7. There was some discussion on the club banquet to be held on August 29th. It was decided to make the final decision at the fun run meeting on June 11th.

#### CLUB BANQUET

There was a short discussion concerning the Club Banquet for 1981 at the fun run meeting held on June 11th. A motion was made and seconded to have the banquet on August 29th with the following format: We will meet at the Heritage Cafeteria at Sunshine and Campbell at 6 p.m. There will be a room reserved for us and everyone can pick what they want to eat. Following the meal we will all travel to the KOA Campground just west of Springfield to have our dance and other activities.

The club will pay for all the costs at the campground except for the cost of bringing your own bottle. There is a large canopy type building at the KOA grounds and we will have exclusive use of all the facilities except the swimming pool.

All the details on the banquet will be announced at the club meeting on June 28th.

#### MEET YOUR FELLOW MEMBERS

This months featured members are both new members and old members at the same time. Let me explain that

## Classic Chevy Car Club Newsletter Archive – June, 1981

a little better.

The members I'm speaking of are Don and Sylvia White. Many of the current members of our club don't know Don and Sylvia but the fact is Don was one of the very first members of our club when it was formed back in 1975. He was instrumental in helping Tom Miller (our first president) to form the Classic Chevy Club of Springfield.

In past years Don has been our Treasurer and our Newsletter Editor, and did a fine job of it!

Don and Sylvia live at 1920 S. Sieger and Don sells used cars for Kim Bradley (another new club member). His main hobby of course, is Classic Chevies, and has been for many years. He has owned several 57 Chevies, and at least two 55s, one of which has just recently been completed. He also enjoys dirt biking and an occasional game of racketball.

Sylvia is a housewife who does babysitting in the home as well as taking care of their two daughters, LaDonna and Haley. She enjoys working with houseplants as is evidenced by the number of them she has in their home. She says it looks like a jungle there at times.

Don and Sylvia dropped out of the club about three or four years ago and sold their 55 Chevy. But about a year ago Don got the bug again to build another 55, so he traded for one that had at one time belonged to Gene Wright.

After several months of gathering parts from CCC International, C and P parts, and of course Holstiens Auto Salvage, Where else?, Don went to work rebuilding his 55.

The car came with a shot 327 engine which Don replaced with a 307, then later a 305 from a 78 model. The original powerglide transmission was retained but that's about all. Everything else on the car was rebuilt (including the tranny) or replaced.

The body and paint work was handled by Gerald Davis who stripped it completely and repainted it the original colors of Cashmere Blue and India Ivory Laquer.

The original interior material was purchased from CCC International and Larry Wallie and installed by White's upholstery here in Springfield. The finishing touches were a set of Weldwheel Wire Wheels and B.F. Good-

rich T/A radial tires.

The car was built to compete in the semi-modified class and will be a tough competitor as evidenced by the second place trophy Don won at St. Joe, Mo. on Memorial Day weekend, the car's first show.

It's always good to see an original member get back into the club again and I hope that any member that doesn't know Don and Sylvia make an effort to meet them because they are fine people and I'm glad to see them back.

### SHADE TREE VIEWS (FROM ASH GROVE)

By Avery Bradley

It was a rainy day for a car show, but despite the rain a half a dozen Classics from the Springfield CCC braved the elements and arrived at Exeter, Mo. between Showers.

Those who made the journey included Avery Bradley (Karen had to stay home and work to support our hobby), Charlie Criswell, Greg Sweet, Carol Taylor, Claude and Karen Rodrique, Bill and Cathy Caldwell and family. Also, James Arnold and his wife and daughter and son-in-law from Walnut Grove travelled down in "Pappy's" freshly completed Gypsy Red and Ivory 55 Rag Top.

Upon arriving the weather seemed to co-operate somewhat better and the show was in progress. After listening to live music and drawings for door prizes, the awaited moment came for trophy presentations. Claude and Karen Rodrique recieved best '55, Avery recieved best '56, Bill and Cathy Caldwell recieved best '57, then much to my surprise, our '56 recieved the trophy for best paint.

### ST. JOSEPH FUN RUN

Despite some threatening weather on Friday, May 22d, several members of the Classic Chevy Club of Springfield left that afternoon or evening in two groups to travel

## *Classic Chevy Car Club Newsletter Archive – June, 1981*

to St. Joseph, Mo. to attend the 3rd annual Memorial Day Fun Run put on by the Pony Express and Heart of America Chevy Owner's Clubs. By the time we got to St. Joe we had travelled through some of the heaviest rains and winds I have ever seen.

By late Saturday morning the weather was starting to co-operate a little, and everyone was able to get their cars cleaned for the show-and-shine that afternoon. According to the sponsoring clubs there were almost 140 classics attending the run from all over the mid-west. Representatives of the Springfield club included Avery and Karen Bradley, Carol Taylor and her sister, Bob Goss, Robin Jones (now Robin Goss), Kim and Sherri Bradley, Don and Sylvia White, Dave Marek, Bud Janes, Jack and Betty Rinker, Dave and Faye McHenry, Claude and Karen Rodrique, Greg Sweet, Jan and Wendell Royster, Kenny Hurley, and Gene and Wilma Wright.

There were lots of games and activities going on Saturday afternoon while the classics were being judged, and that evening there was a dance in the motel parking lot with a live band and lots of 50's and 60's music. Sunday found a large portion of the cars out cruising around St. Joe on the poker run. The route was completely different this year, and it gave everyone an opportunity to see the city, which by the way, is very picturesque.

Sunday afternoon, following free hot dogs, potatoe chips, and soft drinks for everyone, found all the owners of all the beautiful classics gathering for the trophy presentations. As usual, the Springfield club was well represented as the trophies were given out.

Claude and Karen Rodrique took home the third place trophy for 55 semi-modified, Don and Sylvia White got a second in the same class, Bob Goss won the 3rd place trophy in 56 modified, Kim and Sherri Bradley won 3rd in 56 original restored, Avery and Karen Bradley took home the 1st place trophy in 56 semi-modified, and Jan and Wendell Royster got 2nd place in the truck class.

Following the trophy presentations, everyone gathered up their belongings and we headed out for the long trip home. Despite the inclement weather and a few minor difficulties, I think everyone had a good time. I know I enjoyed seeing a lot of old friends again, and I hope we made a few new friends, too.
